| Alternative Catalog Number | MCE-HY-P11351-1UNIT                                                                                                                                                                                                 |
| Manufacturer               | MedchemExpress                                                                                                                                                                                                      |
| Category                   | Proteine/Peptide                                                                                                                                                                                                    |
| Product Description        | Precursor-HhH is a nucleic acid-binding peptide capable of non-specific interactions with RNA and double-stranded DNA (dsDNA). Precursor-HhH is promising for research of nucleic acid-targeted therapeutics[1].... |
| Molecular Weight           | 3256.81                                                                                                                                                                                                             |
| Formula                    | C141H251N49O39                                                                                                                                                                                                      |
| Target                     | DNA/RNA Synthesis                                                                                                                                                                                                   |
| Application Notes          | MCE Product type: Peptides                                                                                                                                                                                          |
