| Category                   | Proteine/Peptide                                                                                                                                                                                 |
| Product Description        | SARS-CoV-2 Spike RBD2 Brazil P1 (gamma)...                                                                                                                                                       |
| Molecular Weight           | 28.4 kDa, Protein contains amino acids 319-541, mutations K417T, E484K, N501Y, plus two extra amino acids (YS) in N-terminus and His-6 tag at C-terminus and GSG linker between protein and tag. |
| UniProt                    | <a href="#">P0DTC2</a>                                                                                                                                                                           |
| Buffer                     | PBS pH 7.4                                                                                                                                                                                       |
