| Species Reactivity         | Human                                                                                                                                                                                                                                                           |
| Product Description        | Human CLDN18.2 full length protein-synthetic nanodisc...                                                                                                                                                                                                        |
| Molecular Weight           | The human full length CLDN18.2 Protein has a MW of 27.5 kDa                                                                                                                                                                                                     |
| UniProt                    | <a href="#">P56856</a>                                                                                                                                                                                                                                          |
| Form                       | Lyophilized from nanodisc solubilization buffer (20 mM Tris-HCl, 150 mM NaCl, pH 8.0). Normally 5% - 8% trehalose is added as protectants before lyophilization. Please see Certificate of Analysis for specific instructions. Do not use solvents with pH lowe |
| Target                     | CLDN18.2                                                                                                                                                                                                                                                        |
