| Category                   | Proteine/Peptide                                                                                                                                                                                                                                                |
| Species Reactivity         | Human                                                                                                                                                                                                                                                           |
| Product Description        | Human ADORA2A full length protein-synthetic nanodisc...                                                                                                                                                                                                         |
| Molecular Weight           | The human full length ADORA2A protein has a MW of 44.7 kDa                                                                                                                                                                                                      |
| UniProt                    | <a href="#">P29274</a>                                                                                                                                                                                                                                          |
| Form                       | Lyophilized from nanodisc solubilization buffer (20 mM Tris-HCl, 150 mM NaCl, pH 8.0). Normally 5% - 8% trehalose is added as protectants before lyophilization. Please see Certificate of Analysis for specific instructions. Do not use solvents with pH lowe |
| Target                     | ADORA2A                                                                                                                                                                                                                                                         |
