| Product Description        | Human Uromodulin proteinA...                                                                                                                                                                                                                                                  |
| Buffer                     | The UMOD protein was lyophilized from 0.4µm filtered solution at a concentration of 0.6mg/ml containing deionized water.                                                                                                                                                      |
| Purity                     | Greater than 95.0% as determined by SDS-PAGE.                                                                                                                                                                                                                                 |
| Form                       | Filtered White lyophilized (freeze-dried) powder.                                                                                                                                                                                                                             |
