| Conjugation                | iFluor647                                                                                                                 |
| Product Description        | Anti-SARS-CoV-2 NSP9 Antibody. Tested in ELISA applications. This antibody reacts with Human....                          |
| Clonality                  | Polyclonal                                                                                                                |
| Concentration              | Adding 0.2 ml of distilled water will yield a concentration of 500 µg/ml.                                                 |
| Molecular Weight           | 140 kDa, 130 kDa, 110 kDa                                                                                                 |
| UniProt                    | <a href="#">P0DTD1</a>                                                                                                    |

|                   |                                                                                                                      |
|-------------------|----------------------------------------------------------------------------------------------------------------------|
| Form              | Lyophilized                                                                                                          |
| Application Notes | Application Notes: ELISA, 0.001-0.1µg/ml, Human. Add 0.2ml of distilled water will yield a concentration of 500ug/ml |
