| Manufacturer               | NeoBiotechnologies                                                                                                                                                                                                                                            |
| Host                       | Rabbit                                                                                                                                                                                                                                                        |
| Category                   | Antikörper                                                                                                                                                                                                                                                    |
| Application                | IHC                                                                                                                                                                                                                                                           |
| Species Reactivity         | Human                                                                                                                                                                                                                                                         |
| Immunogen                  | Recombinant fragment of human KRT17 protein (exact sequence is proprietary)                                                                                                                                                                                   |
| Product Description        | CK17 is normally expressed in the basal cells of complex epithelia but not in stratified or simple epithelia. Antibody to CK17 is an excellent tool to distinguish myoepithelial cells from luminal epithelium of various glands OOsuch as mammary, sweat ... |
| Clonality                  | Monoclonal                                                                                                                                                                                                                                                    |
| Clone Designation          | [MSVA-117R]                                                                                                                                                                                                                                                   |
| Molecular Weight           | 46kDa                                                                                                                                                                                                                                                         |
| NCBI                       | <a href="#">3872</a>                                                                                                                                                                                                                                          |

|         |                                                                                                                                                      |
