Product Datasheet

Retinoic acid receptor, alpha Adenovirus (Ad-RAR α) VEB-1544

Article Name	Retinoic acid receptor, alpha Adenovirus (Ad-RAR α)
Biozol Catalog Number	VEB-1544
Supplier Catalog Number	1544
Alternative Catalog Number	VEB-1544
Manufacturer	VectorBuilder
Category	Molekularbiologie
Product Description	Retinoids are metabolites of vitamin A (retinol) that represent an important group of signaling molecules during vertebrate development and tissue differentiation. Retinoic acid receptors (RARs) include RAR-alpha, RAR-beta and RAR-gamma, each of which binds to a different sequence of DNA. RAR-alpha is found in the liver, heart, and brain, while RAR-beta is found in the liver, heart, and brain. RAR-gamma is found in the liver, heart, and brain. The RARs are involved in the regulation of gene expression, cell differentiation, and cell growth. They are also involved in the development of various tissues and organs. The RARs are also involved in the regulation of gene expression, cell differentiation, and cell growth. They are also involved in the development of various tissues and organs.
Buffer	DMEM, 2% BSA, 2.5% Glycerol
