| Manufacturer               | Biorbyt                                                                                                                                                                                                                     |
| Category                   | Proteine/Peptide                                                                                                                                                                                                            |
| Product Description        | This Recombinant Human Claudin-34 (CLD34), partial spans the amino acid sequence from region 33-80. Purity: Greater than 85% as determined by SDS-PAGE....                                                                  |
| UniProt                    | <a href="#">H7C241</a>                                                                                                                                                                                                      |
| Buffer                     | If the delivery form is liquid, the default storage buffer is Tris/PBS-based buffer, 20%-50% glycerol. If the delivery form is lyophilized powder, the buffer before lyophilization is Tris/PBS-based buffer, 6% Trehalose. |
| Source                     | Homo sapiens (Human)                                                                                                                                                                                                        |
| Purity                     | Greater than 85% as determined by SDS-PAGE.                                                                                                                                                                                 |
| Form                       | Liquid or Lyophilized powder                                                                                                                                                                                                |
