| Category                   | Biochemikalien                                                                                                                           |
| Product Description        | 7-(Tert-Butoxycarbonyl)-7-azaspiro[3.5]nonane-2-carboxylic acid is a PROTAC linker that can be used in the synthesis of PROTACs....      |
| Molecular Weight           | 269.34                                                                                                                                   |
| Purity                     | 98                                                                                                                                       |
| CAS Number                 | [873924-12-0]                                                                                                                            |
| Formula                    | C14H23NO4                                                                                                                                |
| Target                     | PROTAC Linkers                                                                                                                           |
| Application Notes          | MCE Product type: Reference compound                                                                                                     |
