| Manufacturer               | MedchemExpress                                                                                                   |
| Category                   | Biochemikalien                                                                                                   |
| Product Description        | DMTr-2-O-C16-rU-3-CE-Phosphoramidite is a monomeric raw material that can be used for nucleic acid synthesis.... |
| Molecular Weight           | 971.21                                                                                                           |
| CAS Number                 | [2382942-83-6]                                                                                                   |
| Formula                    | C55H79N4O9P                                                                                                      |
| Target                     | Nucleoside Antimetabolite/Analog                                                                                 |
| Application Notes          | MCE Product type: Oligonucleotides                                                                               |
