| Manufacturer               | MedchemExpress                                                                                                                                                                                                                                                |
| Category                   | Proteine/Peptide                                                                                                                                                                                                                                              |
| Product Description        | p53 protein, a tumor suppressor, induces growth arrest or apoptosis in various tumors, regulating cell division through gene control, including cyclin-dependent kinase inhibitors. It stimulates BAX and FAS antigen expression or represses Bcl-2 to ind... |
| Molecular Weight           | Approximately 48 kDa, based on SDS-PAGE under reducing conditions.                                                                                                                                                                                            |
| Formula                    | 716170(Gene_ID)E3U906 (M1-D393)(Accession)                                                                                                                                                                                                                    |
| Application Notes          | MCE Product type: Recombinant Proteins                                                                                                                                                                                                                        |
