Product Datasheet

Rat CD94 Protein, His Tag (MALS verified), Unconjugated, Human ABS-CD4-R52H5-1MG

Article Name	Rat CD94 Protein, His Tag (MALS verified), Unconjugated, Human
Biozol Catalog Number	ABS-CD4-R52H5-1MG
Supplier Catalog Number	CD4-R52H5-1mg
Alternative Catalog Number	ABS-CD4-R52H5-1MG
Manufacturer	AcroBiosystems
Host	Human
Category	Proteine/Peptide
Species Reactivity	Rat
Conjugation	Unconjugated
Product Description	CD94(Natural killer cells antigen CD94) is also known as KLRD1, KP43, NK cell receptor, Killer cell lectinlike receptor subfamily D member 1. CD94 plays a role as a receptor for the recognition of MHC class I HLA-E molecules by NK cells and some cytotoxic T cells. It is also involved in the regulation of NK cell activation and proliferation. CD94 is a type I transmembrane protein consisting of an extracellular domain, a transmembrane domain, and an intracellular domain. The extracellular domain contains two Ig-like domains and a C-type lectin domain. The transmembrane domain contains a transmembrane helix. The intracellular domain contains a short cytoplasmic tail. CD94 is expressed on the surface of natural killer cells, T cells, and dendritic cells. It is also expressed on some tumor cells. CD94 is a heterodimeric protein that forms a complex with the CD227 protein. The CD94/CD227 complex is involved in the recognition of MHC class I molecules by NK cells. CD94 is also involved in the regulation of T cell activation and proliferation. CD94 is a type I transmembrane protein consisting of an extracellular domain, a transmembrane domain, and an intracellular domain. The extracellular domain contains two Ig-like domains and a C-type lectin domain. The transmembrane domain contains a transmembrane helix. The intracellular domain contains a short cytoplasmic tail. CD94 is expressed on the surface of natural killer cells, T cells, and dendritic cells. It is also expressed on some tumor cells. CD94 is a heterodimeric protein that forms a complex with the CD227 protein. The CD94/CD227 complex is involved in the recognition of MHC class I molecules by NK cells. CD94 is also involved in the regulation of T cell activation and proliferation.
Molecular Weight	19.3 kDa
Tag	C-10*His
NCBI	35778
Buffer	PBS, pH7.4
Purity	90%
Form	Powder

Target

CD94
