| Product Description | CTLA4 (Cytotoxic T Lymphocyte Antigen 4) is also known as CD152 (Cluster of differentiation 152), is a protein receptor that downregulates the immune system. CTLA4 is a member of the immunoglobulin superfamily, which is expressed on the surface of He... ...l cells, and is involved in the negative regulation of the T cell receptor signaling pathway. It is a homodimeric protein that binds to CD152 ligands on the surface of antigen-presenting cells. |
