| Host                       | Rabbit                                                                                                      |
| Category                   | Antikörper                                                                                                  |
| Application                | FC                                                                                                          |
| Species Reactivity         | Human, Monkey                                                                                               |
| Immunogen                  | E.coli-derived human TET1 recombinant protein (Position: Q194-E417).                                        |
| Clonality                  | Polyclonal                                                                                                  |
| NCBI                       | <a href="#">80312</a>                                                                                       |
| UniProt                    | <a href="#">Q8NFU7</a>                                                                                      |
| Buffer                     | Each vial contains 50% glycerol, 0.9% NaCl, 0.2% Na <sub>2</sub> HPO <sub>4</sub> , 0.02% Na <sub>3</sub> . |
| Purity                     | Immunogen affinity purified.                                                                                |
| Form                       | Liquid                                                                                                      |
| Target                     | Methylcytosine dioxygenase TET1                                                                             |

Application Dilute

Flow Cytometry, 1-3 $\mu$ g/1x10<sup>6</sup> cells
