| Category                   | Antikörper                                                                                                                                                                                                                                                   |
| Application                | FC, ICC, IHC, WB                                                                                                                                                                                                                                             |
| Species Reactivity         | Human                                                                                                                                                                                                                                                        |
| Immunogen                  | E.coli-derived human CD11a recombinant protein (Position: F161-L349). Human CD11a shares 73.7% amino acid (aa) sequence identity with mouse CD11a.                                                                                                           |
| Product Description        | Boster Bio Anti-CD11a/ITGAL Antibody Picoband catalog A04466-1. Tested in Flow Cytometry, IHC, ICC, WB applications. This antibody reacts with Human. The brand Picoband indicates this is a premium antibody that guarantees superior quality, high affi... |
| Clonality                  | Polyclonal                                                                                                                                                                                                                                                   |
| Concentration              | Adding 0.2 ml of distilled water will yield a concentration of 500 µg/ml.                                                                                                                                                                                    |
| Molecular Weight           | Observed Molecular Weight: 150 kDa. Calculated Molecular Weight: 128770 MW                                                                                                                                                                                   |

|                    |                                                                                                                                                                             |
|--------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| NCBI               | <a href="#">3683</a>                                                                                                                                                        |
| UniProt            | <a href="#">P20701</a>                                                                                                                                                      |
| Buffer             | Each vial contains 4mg Trehalose, 0.9mg NaCl, 0.2mg Na <sub>2</sub> HPO <sub>4</sub> , 0.05mg NaN <sub>3</sub> .                                                            |
| Purity             | Immunogen affinity purified.                                                                                                                                                |
| Form               | Lyophilized                                                                                                                                                                 |
| Target             | Integrin alpha-L                                                                                                                                                            |
| Application Dilute | Immunohistochemistry (Frozen Section), 0.5-1µg/ml<br>Immunocytochemistry, 0.5-1µg/ml<br>Western blot, 0.1-0.5µg/ml<br>Flow Cytometry (Fixed), 1-3µg/1x10 <sup>6</sup> cells |
