| Application                | ELISA, FC, ICC, IF, IP, WB                                                                                                                                                                                                                                   |
| Species Reactivity         | Human, Mouse, Rat                                                                                                                                                                                                                                            |
| Immunogen                  | E.coli-derived human PRTFDC1 recombinant protein (Position: E6-V225).                                                                                                                                                                                        |
| Product Description        | Boster Bio Anti-PRTFDC1 Antibody Picoband catalog A11841-1. Tested in ELISA, Flow Cytometry, IP, IF, ICC, WB applications. This antibody reacts with Human, Mouse, Rat. The brand Picoband indicates this is a premium antibody that guarantees superior ... |
| Clonality                  | Polyclonal                                                                                                                                                                                                                                                   |
| Concentration              | Adding 0.2 ml of distilled water will yield a concentration of 500 µg/ml.                                                                                                                                                                                    |
| Molecular Weight           | Observed Molecular Weight: 26 kDa. Calculated Molecular Weight: 26 kDa                                                                                                                                                                                       |
| NCBI                       | <a href="#">5652</a>                                                                                                                                                                                                                                         |

|                    |                                                                                                                                                                                                                                           |
