| Species Reactivity         | Human                                                                                                                                                         |
| Immunogen                  | A synthetic peptide corresponding to a sequence at the N-terminal of human Mitofusin 1, different from the related mouse and rat sequences by one amino acid. |
| Clonality                  | Monoclonal                                                                                                                                                    |
| Clone Designation          | [Clone: 3H3]                                                                                                                                                  |
| NCBI                       | <a href="#">55669</a>                                                                                                                                         |
| UniProt                    | <a href="#">Q8IWA4</a>                                                                                                                                        |
| Buffer                     | Each vial contains 50% glycerol, 0.9% NaCl, 0.2% Na <sub>2</sub> HPO <sub>4</sub> , 0.02% Na <sub>3</sub> .                                                   |

|                    |                                               |
|--------------------|-----------------------------------------------|
| Purity             | Immunogen affinity purified.                  |
| Form               | Liquid                                        |
| Target             | Mitofusin-1                                   |
| Application Dilute | Flow Cytometry, 1-3µg/1x10 <sup>6</sup> cells |
