| Alternative Catalog Number | BOB-PB9055-FLUORO594-100UG                                                                                                                                                  |
| Manufacturer               | Boster Bio                                                                                                                                                                  |
| Host                       | Rabbit                                                                                                                                                                      |
| Category                   | Antikörper                                                                                                                                                                  |
| Application                | FC                                                                                                                                                                          |
| Species Reactivity         | Human, Mouse, Rat                                                                                                                                                           |
| Immunogen                  | E.coli-derived human CMA1 recombinant protein (Position: I22-N247). Human CMA1 shares 75% and 74% amino acid (aa) sequences identity with mouse and rat CMA1, respectively. |
| Clonality                  | Polyclonal                                                                                                                                                                  |
| Molecular Weight           | Calculated Molecular Weight: 27325 MW                                                                                                                                       |
| NCBI                       | <a href="#">1215</a>                                                                                                                                                        |
| UniProt                    | <a href="#">P23946</a>                                                                                                                                                      |
| Buffer                     | Each vial contains 50% glycerol, 0.9% NaCl, 0.2% Na <sub>2</sub> HPO <sub>4</sub> , 0.02% NaN <sub>3</sub> .                                                                |

|                    |                                               |
|--------------------|-----------------------------------------------|
| Purity             | Immunogen affinity purified.                  |
| Form               | Liquid                                        |
| Target             | Vimentin                                      |
| Application Dilute | Flow Cytometry, 1-3µg/1x10 <sup>6</sup> cells |
