| Category                   | Antikörper                                                                                                                                                                                                                                                   |
| Application                | FC, ICC, IF, WB                                                                                                                                                                                                                                              |
| Species Reactivity         | Human                                                                                                                                                                                                                                                        |
| Immunogen                  | E.coli-derived human BAG2 recombinant protein (Position: M1-N211). Human BAG2 shares 93.4% amino acid (aa) sequence identity with mouse BAG2.                                                                                                                |
| Product Description        | Boster Bio Anti-BAG2 Antibody Picoband catalog PB9524. Tested in Flow Cytometry, IF, ICC, WB applications. This antibody reacts with Human. The brand Picoband indicates this is a premium antibody that guarantees superior quality, high affinity, and ... |
| Clonality                  | Polyclonal                                                                                                                                                                                                                                                   |
| Concentration              | Adding 0.2 ml of distilled water will yield a concentration of 500 µg/ml.                                                                                                                                                                                    |
| Molecular Weight           | Observed Molecular Weight: 24 kDa. Calculated Molecular Weight: 23772 MW                                                                                                                                                                                     |

|                    |                                                                                                                                                           |
|--------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------|
| NCBI               | <a href="#">9532</a>                                                                                                                                      |
| UniProt            | <a href="#">O95816</a>                                                                                                                                    |
| Buffer             | Each vial contains 4 mg Trehalose, 0.9 mg NaCl and 0.2 mg Na <sub>2</sub> HPO <sub>4</sub> .                                                              |
| Purity             | Immunogen affinity purified.                                                                                                                              |
| Form               | Lyophilized                                                                                                                                               |
| Target             | BAG family molecular chaperone regulator 2                                                                                                                |
| Application Dilute | Western blot, 0.1-0.5µg/ml, Human<br>Immunocytochemistry/Immunofluorescence, 5 µg/ml, Human Flow Cytometry (Fixed), 1-3 µg/1x10 <sup>6</sup> cells, Human |
