| Alternative Catalog Number | GTX32001-PEP-50                                                                               |
| Manufacturer               | GeneTex                                                                                       |
| Category                   | Proteine/Peptide                                                                              |
| Application                | NeA                                                                                           |
| Conjugation                | Unconjugated                                                                                  |
| Product Description        | PION peptide is used for blocking the activity of PION antibody (catalog number GTX32001).... |
| Concentration              | 200 µg/ml (Please refer to the vial label for the specific concentration.)                    |
| NCBI                       | <a href="#">54103</a>                                                                         |
| Buffer                     | PBS, 0.1% BSA, 0.02% Sodium azide.                                                            |
| Form                       | Liquid                                                                                        |
