| Biozol Catalog Number      | FBM-10-4262                                                                                                                                             |
| Supplier Catalog Number    | 10-4262                                                                                                                                                 |
| Alternative Catalog Number | FBM-10-4262-5MG, FBM-10-4262-25MG                                                                                                                       |
| Manufacturer               | Focus Biomolecules                                                                                                                                      |
| Category                   | Biochemikalien                                                                                                                                          |
| Product Description        | CCR4 antagonist...                                                                                                                                      |
| Molecular Weight           | 334.17                                                                                                                                                  |
| Purity                     | 98% by HPLC NMR (Conforms)                                                                                                                              |
| Form                       | Off-white/beige solid                                                                                                                                   |
| CAS Number                 | [566203-88-1]                                                                                                                                           |
| Formula                    | C11H9Cl2N3O3S                                                                                                                                           |
| Application Notes          | Potent, orally bioavailable antagonist of CCR4 (pIC50 = 7.8(h), 8.0(r), 8.0(m), 7.6(d)).1 Inactive at CXCR1/2, CCR1, CCR2b, CCR5, CCR7, and CCR8 10 µM. |
