| Alternative Catalog Number | USC-LMA143MI-96                                                                                                       |
| Manufacturer               | Cloud-Clone                                                                                                           |
| Category                   | Kits/Assays                                                                                                           |
| Species Reactivity         | Mouse, Rat                                                                                                            |
| Product Description        | 48T, 96T, 96T*5, 96T*10, 96T*100...                                                                                   |
| Range                      | 0.98-1000pg/mL                                                                                                        |
| Sensitivity                | The minimum detectable dose of this kit is typically less than 0.327<br>pg/mL                                         |
| Samples                    | serum, plasma, tissue homogenates, cell lysates, cell culture<br>supernates and other biological fluids               |
| Application Notes          | FLIA Kit for Antigen Detection.                                                                                       |
