| Species Reactivity         | Mouse                                                                                                                        |
| Conjugation                | BF680                                                                                                                        |
| Product Description        | This is a receptor for secretin. The activity of this receptor is mediated by G proteins which activate adenylyl cyclase.... |
| Clonality                  | Polyclonal                                                                                                                   |
| Concentration              | 1ug/ul                                                                                                                       |
| NCBI                       | <a href="#">6344</a>                                                                                                         |
| UniProt                    | <a href="#">P47872</a>                                                                                                       |
| Buffer                     | Aqueous buffered solution containing 0.01M TBS (pH7.4) with 1% BSA, 0.02% Proclin300 and 50% Glycerol.                       |

|                    |                                                                                |
|--------------------|--------------------------------------------------------------------------------|
| Source             | KLH conjugated synthetic peptide derived from human of human Secretin receptor |
| Target             | Secretin receptor                                                              |
| Application Dilute | WB(1:300-5000), IF(IHC-P)(1:50-200), IF(IHC-F)(1:50-200), IF(ICC)(1:50-200)    |
