| Category                   | Antikörper                                                                                                                                                                           |
| Application                | IF, WB                                                                                                                                                                               |
| Species Reactivity         | Human, Mouse, Rat                                                                                                                                                                    |
| Conjugation                | APC                                                                                                                                                                                  |
| Product Description        | Although its physiological function is unclear, it can inhibit neutrophil cathepsin G and mast cell chymase, both of which can convert angiotensin-1 to the active angiotensin-2.... |
| Clonality                  | Polyclonal                                                                                                                                                                           |
| Concentration              | 1ug/ul                                                                                                                                                                               |
| NCBI                       | <a href="#">12</a>                                                                                                                                                                   |
| UniProt                    | <a href="#">P01011</a>                                                                                                                                                               |
| Buffer                     | Aqueous buffered solution containing 0.01M TBS (pH7.4) with 1% BSA, 0.02% Proclin300 and 50% Glycerol.                                                                               |

|                    |                                                                             |
|--------------------|-----------------------------------------------------------------------------|
| Source             | KLH conjugated synthetic peptide derived from human AACT-Alpha1             |
| Target             | AACT                                                                        |
| Application Dilute | WB(1:300-5000), IF(IHC-P)(1:50-200), IF(IHC-F)(1:50-200), IF(ICC)(1:50-200) |
