| Conjugation                | HRP                                                                                                                                                                                                                                                           |
| Product Description        | Immunoglobulin G (IgG), is one of the most abundant proteins in serum with normal levels between 8-17 mg/mL in adult blood. IgG is important for our defence against microorganisms and the molecules are produced by B lymphocytes as a part of our adapt... |
| Clonality                  | Polyclonal                                                                                                                                                                                                                                                    |
| Concentration              | 1ug/ul                                                                                                                                                                                                                                                        |
| Pubmed                     | <a href=https://pubmed.ncbi.nlm.nih.gov/29408536 target=_blank rel=nofollow>29408536                                                                                                                                                                          |
| Buffer                     | Aqueous buffered solution containing 0.01M TBS (pH 7.4) with 1% BSA, 0.03% Proclin300 and 50% Glycerol.                                                                                                                                                       |

|                    |                                                                       |
|--------------------|-----------------------------------------------------------------------|
| Purity             | Purified by Protein A.                                                |
| Application Dilute | WB(1:300-5000), ELISA(1:500-1000), IHC-P(1:200-400), IHC-F(1:100-500) |
