| Conjugation                | PE/Cy5.5                                                                                                                                                                                                                                                      |
| Product Description        | Reticulon 1A may be involved in neuroendocrine secretion or in membrane trafficking in neuroendocrine cells. It is expressed in neural and neuroendocrine tissues and cell cultures derived therefrom. Expression of isoform RTN1-C is strongly correlated... |
| Clonality                  | Polyclonal                                                                                                                                                                                                                                                    |
| Concentration              | 1ug/ul                                                                                                                                                                                                                                                        |
| Buffer                     | Aqueous buffered solution containing 0.01M TBS (pH7.4) with 1% BSA, 0.02% Proclin300 and 50% Glycerol.                                                                                                                                                        |
| Source                     | KLH conjugated synthetic peptide derived from human Reticulon 1                                                                                                                                                                                               |
| Target                     | RTN1                                                                                                                                                                                                                                                          |
