| Conjugation                | APC                                                                                                                                                                                                                                       |
| Product Description        | This proteoglycan is a major component of extracellular matrix of cartilagenous tissues. A major function of this protein is to resist compression in cartilage. It binds avidly to hyaluronic acid via an N-terminal globular region.... |
| Clonality                  | Polyclonal                                                                                                                                                                                                                                |
