| Product Description        | Enables G protein-coupled receptor activity. Involved in several processes, including G protein-coupled receptor signaling pathway, positive regulation of Rho protein signal transduction, and response to acidic pH. Located in plasma membrane. [provid... |
| Clonality                  | Polyclonal                                                                                                                                                                                                                                                    |
| Concentration              | 1ug/ul                                                                                                                                                                                                                                                        |
