| Product Description        | Kinesin is a microtubule-associated force-producing protein that may play a role in organelle transport. The light chain may function in coupling of cargo to the heavy chain or in the modulation of its ATPase activity.... |
| Clonality                  | Polyclonal                                                                                                                                                                                                                    |
| Concentration              | 1ug/ul                                                                                                                                                                                                                        |
