| Product Description        | This gene encodes a nuclear phosphoprotein that plays a role in maintaining genomic stability, and it also acts as a tumor suppressor. The encoded protein combines with other tumor suppressors, DNA damage sensors, and signal transducers to form a lar... |
| Clonality                  | Polyclonal                                                                                                                                                                                                                                                    |
