| Conjugation                | PE                                                                                                                                                                                                                                                            |
| Product Description        | Component of the Wnt-Fzd-LRP5-LRP6 complex that triggers beta-catenin signaling through inducing aggregation of receptor-ligand complexes into ribosome-sized signalsomes. Cell-surface coreceptor of Wnt/beta-catenin signaling, which plays a pivotal ro... |
| Clonality                  | Polyclonal                                                                                                                                                                                                                                                    |
