| Species Reactivity         | Human                                                                                                                                                                                                                                                         |
| Conjugation                | BF350                                                                                                                                                                                                                                                         |
| Product Description        | Functions as a central linker protein, downstream of the B-cell receptor (BCR), bridging the SYK kinase to a multitude of signaling pathways and regulating biological outcomes of B-cell function and development. Plays a role in the activation of ERK/... |
| Clonality                  | Polyclonal                                                                                                                                                                                                                                                    |
| Concentration              | 1ug/ul                                                                                                                                                                                                                                                        |
