| Conjugation                | APC                                                                                                                                                                                                                                                           |
| Product Description        | The breakpoint cluster region protein (Bcr) is best know to be involved in genomic translocation with fusion partner Abl (Cbr-Abl) causing chronic myelogenous leukemia (CML). This 160 kDa protein contains a serine/threonine kinase domain, an SH2 bind... |
| Clonality                  | Polyclonal                                                                                                                                                                                                                                                    |
| Concentration              | 1ug/ul                                                                                                                                                                                                                                                        |
| NCBI                       | <a href="#">613</a>                                                                                                                                                                                                                                           |
| Buffer                     | Aqueous buffered solution containing 0.01M TBS (pH7.4) with 1% BSA, 0.02% Proclin300 and 50% Glycerol.                                                                                                                                                        |
| Source                     | KLH conjugated synthetic phosphopeptide derived from human Bcr around the phosphorylation site of Tyr177 [PF(p-Y)VN]                                                                                                                                          |

|                    |                                                                                            |
