| Product Description        | The steady state of protein tyrosyl phosphorylation in cells is regulated by the opposing action of tyrosine kinases and protein tyrosine phosphatases (PTPs). Several groups have independently identified a non transmembrane PTP, designated SHPTP1 (al... |
| Clonality                  | Polyclonal                                                                                                                                                                                                                                                    |
