| Tag                        | C-hFc & His                                                                                                                        |
| UniProt                    | <a href="#">O95196</a>                                                                                                             |
| Buffer                     | 150 mM PBS(pH 7.4)                                                                                                                 |
| Source                     | Recombinant human CSPG5 Protein is expressed in HEK293 cell with C-hFc & C-His. It contains the amino acid sequence of 241-330/566 |
| Expression System          | HEK293                                                                                                                             |
| Purity                     | > 85% as determined by SDS-PAGE                                                                                                    |
