| Conjugation                | HRP                                                                                                                                                                                                                                                            |
| Product Description        | Transcriptional coactivator of the p300/CBP-mediated transcription complex. Acts as a bridge, linking TFAP2 transcription factors and the p300/CBP transcriptional coactivator complex in order to stimulate TFAP2-mediated transcriptional activation. Pos... |
| Clonality                  | Polyclonal                                                                                                                                                                                                                                                     |
