| Application                | WB                                                                                                                                                                                        |
| Species Reactivity         | Human, Mouse, Rat                                                                                                                                                                         |
| Conjugation                | APC/Cy5.5                                                                                                                                                                                 |
| Product Description        | As part of the heme biosynthetic pathway, catalyzes the sequential polymerization of four molecules of porphobilinogen to form hydroxymethylbilane, also known as preuroporphyrinogen.... |
| Clonality                  | Recombinant                                                                                                                                                                               |
| Concentration              | Lot dependent                                                                                                                                                                             |
| NCBI                       | <a href="#">3145</a>                                                                                                                                                                      |
| UniProt                    | <a href="#">P08397</a>                                                                                                                                                                    |
| Buffer                     | Aqueous buffered solution containing 0.01M TBS (pH7.4) with 1% BSA, 0.02% Proclin300 and 50% Glycerol.                                                                                    |

|                    |                                                                               |
|--------------------|-------------------------------------------------------------------------------|
| Source             | KLH conjugated synthetic peptide derived from human Porphobilinogen deaminase |
| Target             | HMBS                                                                          |
| Application Dilute | WB(1:300-5000)                                                                |
