| Species Reactivity         | Human                                                                                                                                                                                                                                                         |
| Conjugation                | BF750                                                                                                                                                                                                                                                         |
| Product Description        | Transcription regulatory factor that mediates signaling by type I IFNs (IFN-alpha and IFN-beta). Following type I IFN binding to cell surface receptors, Jak kinases (TYK2 and JAK1) are activated, leading to tyrosine phosphorylation of STAT1 and STAT2... |
| Clonality                  | Recombinant                                                                                                                                                                                                                                                   |
| Concentration              | Lot dependent                                                                                                                                                                                                                                                 |
| NCBI                       | <a href="#">10379</a>                                                                                                                                                                                                                                         |
| UniProt                    | <a href="#">Q00978</a>                                                                                                                                                                                                                                        |

|                    |                                                                                                        |
|--------------------|--------------------------------------------------------------------------------------------------------|
| Buffer             | Aqueous buffered solution containing 0.01M TBS (pH7.4) with 1% BSA, 0.02% Proclin300 and 50% Glycerol. |
| Source             | KLH conjugated synthetic peptide derived from human Interferon regulatory factor 9                     |
| Target             | IRF9/ISGF3                                                                                             |
| Application Dilute | WB(1:300-5000), FCM(1ug/Test)                                                                          |
