| Conjugation                | BF350                                                                                                                                                                                                                                                         |
| Product Description        | Receptor for interleukin-11 (IL11). The receptor systems for IL6, LIF, OSM, CNTF, IL11 and CT1 can utilize IL6ST for initiating signal transmission. The IL11/IL11RA/IL6ST complex may be involved in the control of proliferation and/or differentiation ... |
| Clonality                  | Recombinant                                                                                                                                                                                                                                                   |
| Concentration              | Lot dependent                                                                                                                                                                                                                                                 |
| NCBI                       | <a href="#">3590</a>                                                                                                                                                                                                                                          |
| UniProt                    | <a href="#">Q14626</a>                                                                                                                                                                                                                                        |

|                    |                                                                                                        |
|--------------------|--------------------------------------------------------------------------------------------------------|
| Buffer             | Aqueous buffered solution containing 0.01M TBS (pH7.4) with 1% BSA, 0.02% Proclin300 and 50% Glycerol. |
| Source             | KLH conjugated synthetic peptide derived from human IL 11 receptor alpha                               |
| Target             | IL-11RA                                                                                                |
| Application Dilute | WB(1:300-5000), FCM(1ug/Test)                                                                          |
