| Conjugation                | Biotin                                                                                                                                                                                                                                                          |
| Product Description        | Induces disassembly of actin filaments in conjunction with ADF/cofilin family proteins. Enhances cofilin-mediated actin severing. Involved in cytokinesis. Involved in chemotactic cell migration by restricting lamellipodial membrane protrusions. Involve... |
| Clonality                  | Recombinant                                                                                                                                                                                                                                                     |
| Concentration              | Lot dependent                                                                                                                                                                                                                                                   |
