| Product Description        | The protein encoded by this gene is a member of the inorganic pyrophosphatase (PPase) family. PPases catalyze the hydrolysis of pyrophosphate to inorganic phosphate, which is important for the phosphate metabolism of cells. Studies of a similar prote... |
| Clonality                  | Recombinant                                                                                                                                                                                                                                                   |
