| Category                   | Antikörper                                                                                                                                                                                                                                                           |
| Application                | ELISA, IHC, WB                                                                                                                                                                                                                                                       |
| Species Reactivity         | Human                                                                                                                                                                                                                                                                |
| Immunogen                  | A portion of amino acids 256-286 from the human protein was used as the immunogen for this TNK1 antibody.                                                                                                                                                            |
| Product Description        | Protein kinases are enzymes that transfer a phosphate group from a phosphate donor, generally the $\gamma$ phosphate of ATP, onto an acceptor amino acid in a substrate protein. By this basic mechanism, protein kinases mediate most of the signal transduction... |
| Clonality                  | Polyclonal                                                                                                                                                                                                                                                           |
| UniProt                    | <a href="#">Q13470</a>                                                                                                                                                                                                                                               |
| Purity                     | Purified                                                                                                                                                                                                                                                             |
| Form                       | In 1X PBS, pH 7.4, with 0.09% sodium azide                                                                                                                                                                                                                           |
| Antibody Type              | Primary Antibody                                                                                                                                                                                                                                                     |

|                    |                                                                                                                     |
|--------------------|---------------------------------------------------------------------------------------------------------------------|
| Application Dilute | Western blot: 1:1000,IHC (Paraffin): 1:50-1:100                                                                     |
| Application Notes  | Titration of the TNK1 antibody may be required due to differences in protocols and secondary/substrate sensitivity. |
