CD35 Antibody (Complement Receptor 1), Clone: [SPM554], Mouse, Monoclonal NSJ-V9010-20UG

Article Name	CD35 Antibody (Complement Receptor 1), Clone: [SPM554], Mouse, Monoclonal
Biozol Catalog Number	NSJ-V9010-20UG
Supplier Catalog Number	V9010-20UG
Alternative Catalog Number	NSJ-V9010-20UG
Manufacturer	NSJ Bioreagents
Host	Mouse
Category	Antikörper
Application	IHC-P
Species Reactivity	Human
Immunogen	Human monocytes were used as the immunogen for this CD35 antibody.
Product Description	Recognizes a protein of 210-220kDa, which is identified as the Complement receptor 1 or CD35. This mAb is specific for a site in CR1 that is distal from the C3b-binding site, so that it is unable to block CR1/CD35 activity. It is highly specific and ...
Clonality	Monoclonal
Clone Designation	[SPM554]
UniProt	P17927
Purity	Protein G affinity chromatography

Form	0.2 mg/ml in 1X PBS with 0.1 mg/ml BSA (US sourced) and 0.05% sodium azide
Antibody Type	Primary Antibody
Application Dilute	Immunohistochemistry (FFPE): 1-2ug/ml for 30 min at RT
Application Notes	The optimal dilution of the CD35 antibody for each application should be determined by the researcher. 1. Staining of formalin-fixed tissues requires boiling tissue sections in pH 9 10mM Tris with 1mM EDTA for 10-20 min followed by cooling at RT for 20 minutes. 2. The prediluted format is supplied in a dropper bottle and is optimized for use in IHC. After epitope retrieval step (if required), drip mAb solution onto the tissue section and incubate at RT for 30 min.
