| Host                       | Rabbit                                                                                                                                                                                                                                                        |
| Category                   | Antikörper                                                                                                                                                                                                                                                    |
| Application                | IHC-P, WB                                                                                                                                                                                                                                                     |
| Species Reactivity         | Human                                                                                                                                                                                                                                                         |
| Immunogen                  | Recombinant full-length human RNA binding protein fox-1 homolog 3 protein was used as the immunogen for the recombinant NeuN antibody.                                                                                                                        |
| Product Description        | RNA binding protein fox-1 homolog 3, also called RBFOX3, Neuronal Nuclei Antigen and NeuN, is present in most CNS and PNS neuronal cell types of all vertebrates tested. NeuN protein distributions are apparently restricted to neuronal nuclei and some ... |
| Clonality                  | Monoclonal                                                                                                                                                                                                                                                    |
| Clone Designation          | [NeuN/288R]                                                                                                                                                                                                                                                   |
| UniProt                    | <a href="#">A6NFN3</a>                                                                                                                                                                                                                                        |

|                    |                                                                                           |
|--------------------|-------------------------------------------------------------------------------------------|
| Purity             | Protein A/G affinity                                                                      |
| Form               | 0.2 mg/ml in 1X PBS with 0.1 mg/ml BSA (US sourced), 0.05% sodium azide                   |
| Antibody Type      | Primary Antibody                                                                          |
| Application Dilute | Immunohistochemistry (FFPE): 1-2ug/ml, Western blot: 1-2ug/ml                             |
| Application Notes  | Optimal dilution of the recombinant NeuN antibody should be determined by the researcher. |
