| Host                       | Mouse                                                                                                                                                                                                               |
| Category                   | Antikörper                                                                                                                                                                                                          |
| Application                | ICC, IHC                                                                                                                                                                                                            |
| Species Reactivity         | Rat                                                                                                                                                                                                                 |
| Immunogen                  | Fusion protein amino acids 1-125 (third intracellular loop) of rat MOG (accession number Q6MFX9) produced recombinantly in E. Coli                                                                                  |
| Conjugation                | FL490                                                                                                                                                                                                               |
| Product Description        | Our Anti-MOG mouse monoclonal primary antibody from NeuroMab is produced in-house from hybridoma clone L94/54. It detects rat MOG, and is purified by Protein A chromatography. It is great for use in IHC, ICC.... |
| Clonality                  | Monoclonal                                                                                                                                                                                                          |
| Concentration              | 0.5 mg/mL                                                                                                                                                                                                           |
| Clone Designation          | [L94/54]                                                                                                                                                                                                            |

|                   |                                              |
|-------------------|----------------------------------------------|
| Molecular Weight  | 28 kDa                                       |
| Isotype           | IgG2b                                        |
| UniProt           | <a href="#">Q6MFX9</a>                       |
| Buffer            | PBS with 0.09% azide                         |
| Target            | MOG                                          |
| Antibody Type     | Primary Antibody                             |
| Application Notes | Format: Purified by Protein A chromatography |
