| Manufacturer               | Aviva                                                                                                                                                                                                                                                         |
| Host                       | E. coli                                                                                                                                                                                                                                                       |
| Category                   | Proteine/Peptide                                                                                                                                                                                                                                              |
| Application                | Control, WB                                                                                                                                                                                                                                                   |
| Species Reactivity         | Equine                                                                                                                                                                                                                                                        |
| Conjugation                | Unconjugated                                                                                                                                                                                                                                                  |
| Product Description        | Potent proinflammatory cytokine. Initially discovered as the major endogenous pyrogen, induces prostaglandin synthesis, neutrophil influx and activation, T-cell activation and cytokine production, B-cell activation and antibody production, and fibrob... |
| Concentration              | 200 ug/mL (prior to lyoph)                                                                                                                                                                                                                                    |
| Molecular Weight           | 25kDa                                                                                                                                                                                                                                                         |
| Tag                        | N-terminal His Tag                                                                                                                                                                                                                                            |
