| Alternative Catalog Number | ASB-OPPA02081-5UG                                                                                                                            |
| Manufacturer               | Aviva                                                                                                                                        |
| Host                       | E. coli                                                                                                                                      |
| Category                   | Proteine/Peptide                                                                                                                             |
| Species Reactivity         | E. coli                                                                                                                                      |
| Product Description        | Recombinant E.Coli Thiol Disulfide Interchange Protein...                                                                                    |
| NCBI                       | <a href="#">945224</a>                                                                                                                       |
| Purity                     | Greater than 95.0% as determined by SDS-PAGE.                                                                                                |
| Form                       | The DsbG protein solution contains 20mM Tris-HCl, pH-8, 2mM EDTA and 10% Glycerol. Physical appearance: Sterile filtered colorless solution. |
