| Alternative Catalog Number | ASB-OAAB04855-400UL                                                                                                                                                                       |
| Manufacturer               | Aviva                                                                                                                                                                                     |
| Host                       | Rabbit                                                                                                                                                                                    |
| Category                   | Proteine/Peptide                                                                                                                                                                          |
| Application                | FC, IHC, WB                                                                                                                                                                               |
| Species Reactivity         | Human                                                                                                                                                                                     |
| Immunogen                  | This PHLPP2 antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 1295-1323 amino acids from the C-terminal region of human PHLPP2.                |
| Clonality                  | Polyclonal                                                                                                                                                                                |
| Concentration              | Approximately 0.5mg/ml. Actual concentration varies with each lot.                                                                                                                        |
| Molecular Weight           | 146751 Da                                                                                                                                                                                 |
| NCBI                       | <a href="#">23035</a>                                                                                                                                                                     |
| UniProt                    | <a href="#">Q6ZVD8</a>                                                                                                                                                                    |
| Form                       | Purified polyclonal antibody supplied in PBS with 0.09% (W/V) sodium azide. This antibody is prepared by Saturated Ammonium Sulfate (SAS) precipitation followed by dialysis against PBS. |
