## Product Datasheet

### Human IKBKE(Inhibitor of Nuclear Factor Kappa-B Kinase Subunit Epsilon) ELISA Kit EBT-ELK0002

Article Name	Human IKBKE(Inhibitor of Nuclear Factor Kappa-B Kinase Subunit Epsilon) ELISA Kit
Biozol Catalog Number	EBT-ELK0002
Supplier Catalog Number	ELK0002
Alternative Catalog Number	EBT-ELK0002-96, EBT-ELK0002-48, EBT-ELK0002-96X5
Manufacturer	ELK Biotechnology
Category	Kits/Assays
Species Reactivity	Human
Concentration	5000 pg/mL
Range	78.13-5000 pg/mL
Sensitivity	16.9 pg/mL
UniProt	<a href="#">Q14164</a>
Samples	serum, plasma, tissue homogenates and other biological fluids

Application Notes

Assay Type: Sandwich. Assay length: 3.5h. Research Area: Signal transduction,. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Human IKBKE. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Human IKBKE. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Human IKBKE, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Human IKBKE in the samples is then determined by comparing the OD of the samples to the standard curve
